Mayor's introduction

On behalf of your elected Council, it is with great pleasure that I present the 2023/24 budget to the community of Southern Grampians Shire.

This year's budget, and Long Term Financial Plan, have been completed against a very challenging financial environment. For the second year in a row, there has been a substantial difference between the rate cap, imposed by the State Government, and inflation. In the 2022/23 financial year, the rate cap was 1.75%, with inflation peaking at around 7%. In the 2021-22 financial year, our rate cap was 1.50% with inflation peaking at 6.10%. This represents a substantial gap between Councils ability to raise revenue and its cost to operate. This challenge was accentuated by the fact that construction costs, a significant part of every Council budget, has been rising by a significantly higher rate than inflation.

This budget will see many multi-year projects come to fruition as well as introduce some new projects which are essential to see the Shire grow and thrive in a modern culturally diverse community.

The focus has been and will continue to be on the renewal and redevelopment of a number of key community infrastructure assets. Much of this work is funded from external sources, however Council will need to borrow additional funds to ensure these assets are fit for purpose and meet the needs and expectations of coming generations. Council anticipates investing over \$40m in capital works for 2023/24 highlighted below with details found in Section 5 of the document.

Key projects to be finalised this year include:

- ✓ Melville Oval Facilities Upgrade,
- ✓ Dunkeld- Mount Sturgeon Loop Walk,
- ✓ Purchase of buildings in Lonsdale Street, and
- ✓ Cox Street precinct development.

New Projects commencing this year include:

- ✓ Detailed design of a new Hamilton Art Gallery.
- ✓ Investigating a new Digital Hub in partnership with Government and Technology organisations.
- ✓ A major renewal program for our aged outdoor swimming pools.
- ✓ Hamilton CBD streetscape planning and design.

Maintenance and Renewal of our Assets will continue with spending in the following areas:

- ✓ Building renewals and minor upgrades across the Shire to community facilities including Coleraine Silvester Oval, Cavendish Preschool, Coleraine Mechanics Institute Hall, Balmoral RSL, Hamilton Mechanics' Institute Hall and Carapook Hall.
- ✓ Sporting facility renewals at Mitchell Park Cricket Rooms and Hamilton Indoor Leisure and Aquatic Centre.
- ✓ Public Toilet upgrades at Mitchell Square (IGA Carpark) in Hamilton, Glenthompson and Peshurst Hall.
- ✓ Renewal of Infrastructure assets such as roads, bridges & culverts, drainage, footpaths, vehicles and equipment.
- ✓ Reinvestment in technology to support both customers and staff operations including a CCTV staged rollout.
- ✓ Renewal of books and resources for both our branch and mobile library.
- ✓ Drainage and carpark works at Pedrina Park, Hamilton and Coleraine's Silvester Oval.

Projects which will assist in more efficient operations, enhance safety measures or increase revenue generation include:

- ✓ Renewal of parking meters within the Hamilton CBD.
- ✓ Investment into waste facilities and options implementation systems including artificial intelligence solutions.
- ✓ Pedestrian crossing and carparking improvements at the Hamilton Showgrounds.
- ✓ Cattle yard and walkway modifications at the Hamilton Region Livestock Exchange.
- ✓ Detailed design of flood defence at both Coleraine and Dunkeld townships.

The Local Roads and Community Infrastructure Program has continued to provide additional capital funding for new projects in addition to Councils existing budget. These four funding rounds have now provided \$9.6m over a four-year period with an extra \$1.145m announced for 2024-2026 to go towards roads infrastructure (not included in this budget) as I write this report.

Council will also commence selling land in the Hamilton Gateway Industrial Park and Lakes Edge housing development. These sales will help to fund the outlay for the initial investment already made and provide a revenue stream for other projects, but most importantly provide much needed land for new business and homeowners to invest and live in the Shire.

Living in a post-covid environment, Council has seen services settle into a new “normal”. Emphasis is still placed on reviewing these services for further efficiencies and ensuring they meet the needs of the community and their previously identified priorities.

We will also continue our focus on partnerships and collaboration, both with providers locally and regionally with our neighbouring Councils to review service models, increase efficiencies and drive down costs whilst continuing to explore other revenue streams. Specific projects include:

- ✓ Building effective partnerships with First Nations which aids reconciliation,
- ✓ Examining Council's Volunteer policies and frameworks & provide recognition of volunteers,
- ✓ Continue to promote Council's Gender Equity Plan and Responsibilities.
- ✓ Advocating for the continuing attraction of visitor economy infrastructure.
- ✓ Re-engaging with the local and regional business community.
- ✓ Continuing with the pilot wastewater management system for Peshurst.
- ✓ Continuing to develop education programs around preparedness for emergencies.
- ✓ Delivering new digital systems to improve customer connectivity and relations including a new Council website.
- ✓ Updating our Community Investment Plan (Advocacy Plan) to advocate for project funding.
- ✓ Further develop and implement Council's Asset Renewal Plan and Policy with a view to increasing investment.

The development of strategic documents and plans are also important to help shape our future and therefore Council will develop the following:

- ✓ Business and Marketing Plan for Hamilton Region Livestock Exchange.
- ✓ Grampians Destination Management Plan
- ✓ Business Case for an Alternative Heavy Vehicle Route for Hamilton
- ✓ Circular Economy and Sustainability Strategy
- ✓ Natural Asset Strategy

To fund this extensive program of both operational and capital works, Council has proposed rates to increase by 3.5% (rate cap has been set by the Minister for Local Government at 3.5%). It is also proposing to borrow \$8m to fund some of the infrastructure expenditure on intergenerational assets.

Council will also demonstrate civic leadership by starting to engage with the community around the promotion and preparation of the 2024 Council Elections.

On behalf of my Councillor colleagues and the Southern Grampians Shire Council organisation, I commend this 2023/24 Budget to the community and look forward to delivering and reporting back to the community in 12 months on our achievements and successes.

Executive Summary

Council has prepared a Budget for 2023/24 which is aligned to the vision in the Council Plan 2021-25. It seeks to ensure our services meet community needs and delivers infrastructure that supports our services as well as deliver projects that are valued by our community, within the rate increase mandated by the State Government.

This Budget projects a deficit of \$6.951 million for 2023/24. It should be noted that the adjusted underlying result is a deficit of \$3.607m when adjusting for non-recurrent capital grants or contributions of \$10.558m.

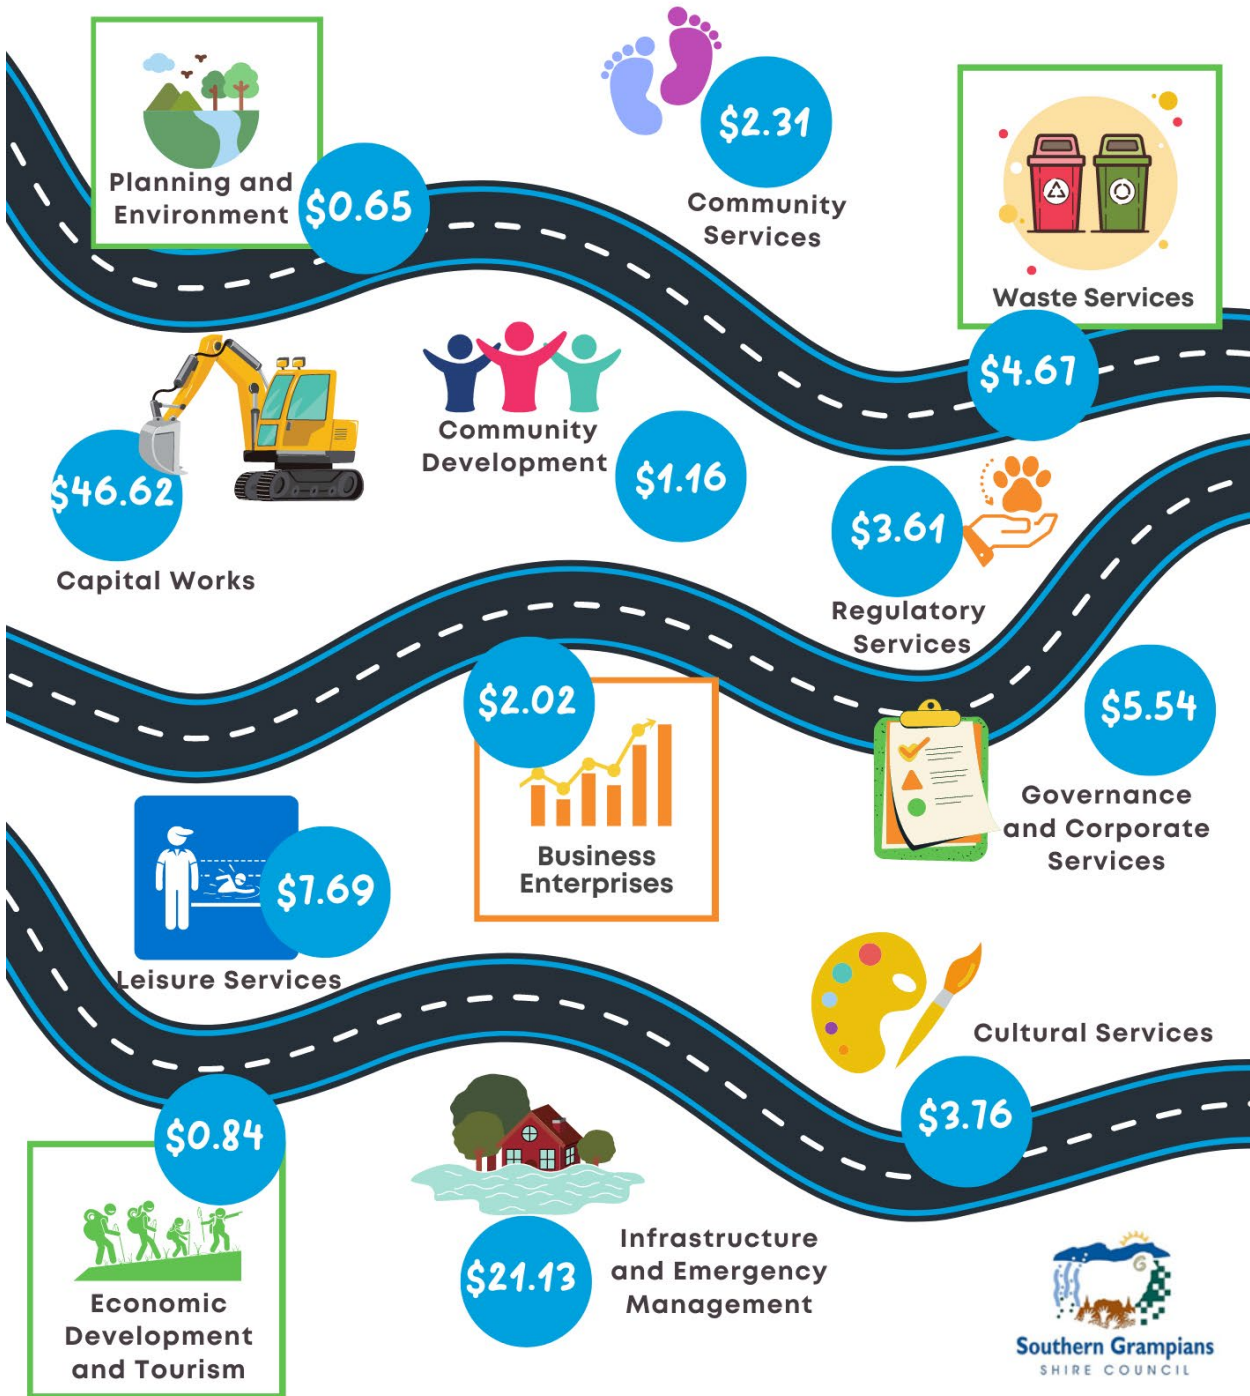

This section includes the following reports and statements in accordance with the Local Government Act 2020 (where applicable) and the Local Government Model Budget.

E3. Budget influences

This section sets out the key budget influences arising from the internal and external environment within which the Council operates.

External influences

In preparing the 2023/24 Budget, a number of external influences have been taken into consideration because they are likely to impact significantly on the services delivered by Council in the budget period. These include:

- The need to renegotiate Enterprise Bargaining Agreements (EBA) every 3 years.
- The increased demand for Council services and the need to review all services to ensure they are responsive, appropriate and efficient.
- Irregular funding from Victoria Grants Commission. A static period of 3 years together with only modest increases prior to and after this period, has eroded the index base.
- Roads to Recovery funding from 2019–2024 - \$9.926m over the five years.
- Continuing escalation of utility costs essential for carrying out services (water, power, gas, communications and insurances).
- Significant changes to funding regimes for community services involving the implementation of the NDIS (National Disability Insurance Scheme), CHSP (Commonwealth Home Support Programme) and other funding streams coupled with the competitive requirements and in some cases market failure to provide these essential services, has resulted in Council resolving to transition away from service provision in all home support services. This transition occurred during the 2022/23 financial year and therefore there are no budget allocations for some services from the 2023/24 year onwards. Council will continue to review the role it plays in the overall health and wellbeing of all residents and visitors.
- Continuing increases in the demand and associated costs to improve waste management service levels (Landfills, Transfer Stations and Refuse/Recycling collections) along with imposition of strict guidelines from government in regard to management practices.
- The continuation of rate-capping by the State Government – set at 3.5% for 2023/24.
- The increased costs across the organisation of meeting compliance standards set by other levels of government.
- The implementation of the Victorian Local Government Act 2020.

Internal influences

As well as external influences, there are also a number of internal influences which are expected to have a significant impact on the preparation of the 2023/24 Budget.

- The need for improved asset management practices to ensure efficient and effective use of Council's physical resources.
- Continuing escalation of costs in relation to the maintenance and renewal of Council's ageing infrastructure assets.
- The need for more detailed planning of major developments to ensure optimum asset longevity.

In an effort to reduce the impact of these matters, Council continues on a service delivery realignment to ensure resources align with the services provided and compliment the direction of the Council Plan.

The organisation also underwent an internal structure review during the 2022/23 year resulting in changes to staff levels and service levels to better align to the achievement of Council's overall direction. A detailed examination of all revenues and expenses occurred during the preparation of this budget. Council will continue to look for savings and new revenue sources to achieve overall operational efficiencies.

Exceptional Events

In early 2020, the outbreak of COVID-19 interrupted the business operations of Council for the 2019/20 financial year. Council temporarily suspended a range of services to the community from March 2020.

Many of these services have resumed however, not all services have returned to pre-covid status. Some services have been adapted to new processes and methods of delivery for all or part of their services. The full impact of operating in a covid impacted environment - financial, economic and social - will not be able to be quantified in their entirety.

Council will continue to review how it operates to ensure it is an agile and responsive organisation in this "new" normal environment.

E4. Budget principles

Guidance is provided to all Council officers with budget responsibilities. These key budget principles upon which the officers were to prepare their budgets included:

- Existing fees and charges only to be increased to work towards achieving Council's Rating & Revenue Policy classifications.
- Grants to be based on confirmed funding levels.
- Additional revenue sources to be identified where possible.
- Service levels to be maintained at 2022/23 levels with the aim to use less resources with an emphasis on innovation and efficiency.
- Contract labour to be minimised.
- New initiatives or employee proposals to be justified through a business case.
- Real savings in expenditure and increases in revenue identified in 2022/23 to be preserved.
- Operating revenues and expenses arising from completed 2023/23 capital projects to be included.

Cost escalations for the preparation of the 2023/24 budget onwards include:

- Rate revenue to be projected at 3.5% which is the current year rate cap.
- Operating Grants increasing at 2%.
- Capital Grants only included where some level of surety arises and are linked directly to a specific capital project.
- Continuation of the Roads to Recovery program at committed levels.
- User Fees and Charges increasing in line with service reviews and Council's Rating & Revenue Policy – 6-7%.
- Statutory Fees and Charges only increasing where legislation is known.
- Employee costs increasing at 4.5% (3% base with 1.5% for on-costs).
- Materials & consumables increasing at 2.5%.
- Utilities and other operating expenses increasing at 2.5%.

Budget Reports

The following reports include all statutory disclosures of information and are supported by the analysis contained in sections 8 to 15 of this report.

This section includes the following reports and statements in accordance with the Local Government Act 2020 and the Local Government Model Budget 2023/24.

1. Linkage to the Integrated Planning and Reporting Framework.
2. Services and Service Performance Indicators.
3. Financial statements.
4. Notes to the Financial Statements.
5. Detailed Capital Works Statement.
6. Financial Performance Indicators.

1. Linkage to the Integrated Planning & Reporting Framework

This section describes how the Budget links to the achievement of the Community Vision and Council Plan within an overall integrated planning and reporting framework. This framework guides the Council in identifying community needs and aspirations over the long term (Community Vision and Financial Plan), medium term (Council Plan, Workforce Plan, and Revenue and Rating Plan) and short term (Budget) and then holding itself accountable (Annual Report).

1.1 Planning and accountability framework

The Budget is a rolling four-year plan that outlines the financial and non-financial resources that Council requires to achieve the strategic objectives described in the Council Plan. The diagram below depicts the integrated planning and reporting framework that applies to local government in Victoria. At each stage of the integrated planning and reporting framework there are opportunities for community and stakeholder input. This is important to ensure transparency and accountability to both residents and ratepayers.

Source: Department of Jobs, Precincts and Regions 2020

The timing of each component of the integrated planning and reporting framework is critical to the successful achievement of the planned outcomes.

1.1.2 Key Planning Considerations

Although councils have a legal obligation to provide some services—such as animal management, local roads, food safety and statutory planning—most council services are not legally mandated, including some services closely associated with councils, such as libraries, building permits and sporting facilities. Further, over time, the needs and expectations of communities can change. Therefore Council needs to have robust processes for service planning and review to ensure all services continue to provide value for money and are in line with community expectations. In doing so, Council engages with its various communities to determine how to prioritise resources and balance service provision against other responsibilities such as asset maintenance and capital works.

Community consultation is in line with Council’s adopted Community Engagement Policy and Public Transparency Policy.

1.2 Our Vision & Values

Our Vision

**‘Southern Grampians is a growing, inclusive and connected community
That fosters sustainability, diversity and innovation’.**

To achieve this vision, we have developed five fundamental priority areas and these themes will guide the development and implementation of Council’s objectives and strategies.

Our Values

Southern Grampians has a clear strength in the bond and affinity between its Councillors, the community and staff. Staff support the community leadership and governance role of Councillors, and work together to achieve the commitments of the Council Plan.

Having all Southern Grampians staff and Councillors practise the following organisational values, which were identified by staff and Councillors as being of the highest importance, will enhance the quality of this partnership.

- **Innovative:** we will be open to new ideas, will welcome creativity and embrace change.
- **Respectful:** we will be caring, accept difference and value diversity.
- **Collaborative:** together we will work smarter to achieve agreed common goals.
- **Trusting:** we will be open, honest and brave.
- **Empowering:** we will delegate opportunities and develop and inspire success.

1.3 Themes and Strategic objectives

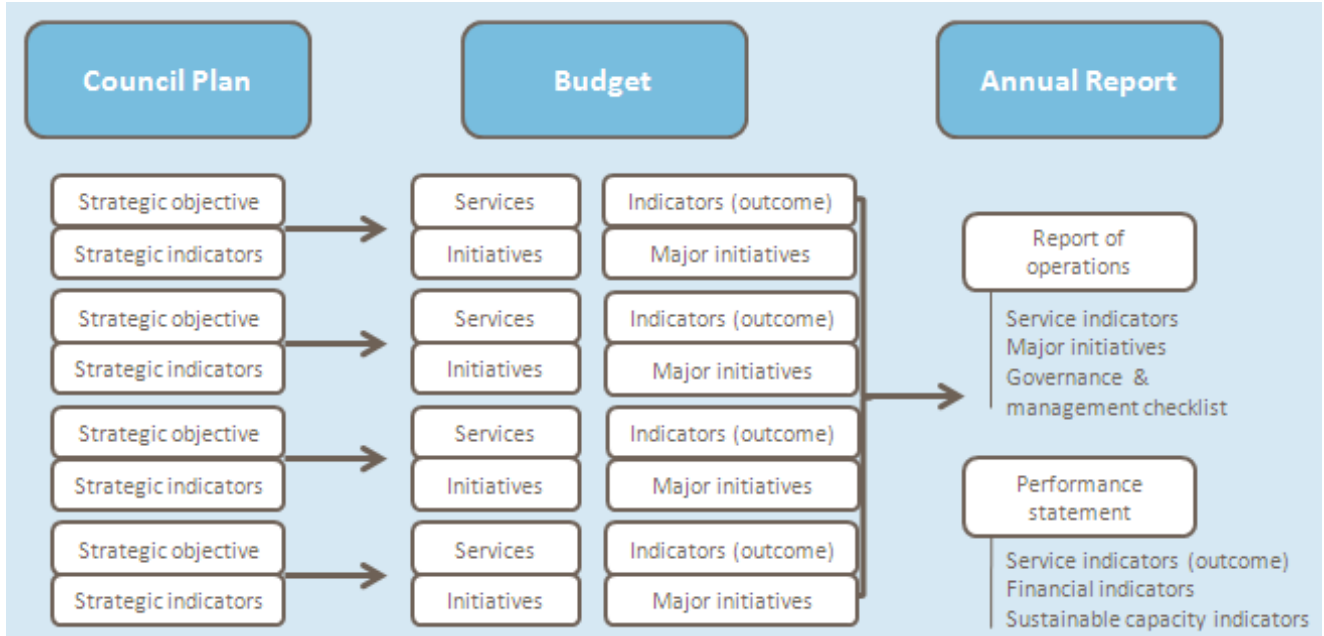

Council delivers services and initiatives to approximately 70 service categories. Each service contributes to the achievement of the Strategic Objectives as set out in the Council Plan for the years 2021- 25.

The following table lists the five Themes and Strategic Objectives as described in the Council Plan.

Theme	Strategic Objectives
1. Support our Community	1.1 An empowered and connected community. 1.2 Support and promote a healthy community. 1.3 Grow a diverse and inclusive community. 1.4 A safe community.
2. Grow our Regional Economy	2.1 Drive economic growth. 2.2 Increase our regional profile. 2.3 Continue to support the development of a skilled workforce 2.4 Support local business and community.
3. Maintain and Renew our Infrastructure	3.1 Plan and maintain sustainable assets and infrastructure. 3.2 Safe and well-maintained transport routes and infrastructure for all modes of travel. 3.3 Attractive Council-owned and managed community and open spaces.
4. Protect our Natural Environment	4.1 Protect and enhance biodiversity including the health of waterways, wetlands, soil and air. 4.2 Balance environmental protection with Council's support for growth. 4.3 Sustainable waste management services. 4.4 Mitigate against and adapt to climate change.
5. Provide Strong Governance and Leadership	5.1 Transparent and accountable governance. 5.2 Effective advocacy. 5.3 Committed and skilled staff. 5.4 Customer focused services.

2. Services and Service Performance Indicators

This section provides a description of the services and initiatives to be funded in the Budget for the 2023/24 year and how these will contribute to achieving the strategic objectives outlined in the Council Plan. It also describes several initiatives and service performance outcome indicators for key areas of Council’s operations. Council is required by legislation to identify major initiatives, initiatives and service performance outcome indicators in the Budget and report against them in their Annual Report to support transparency and accountability. The relationship between these accountability requirements in the Council Plan, the Budget and the Annual Report is shown below

Source: Department of Jobs, Precincts and Regions

4. Notes to the Financial Statements

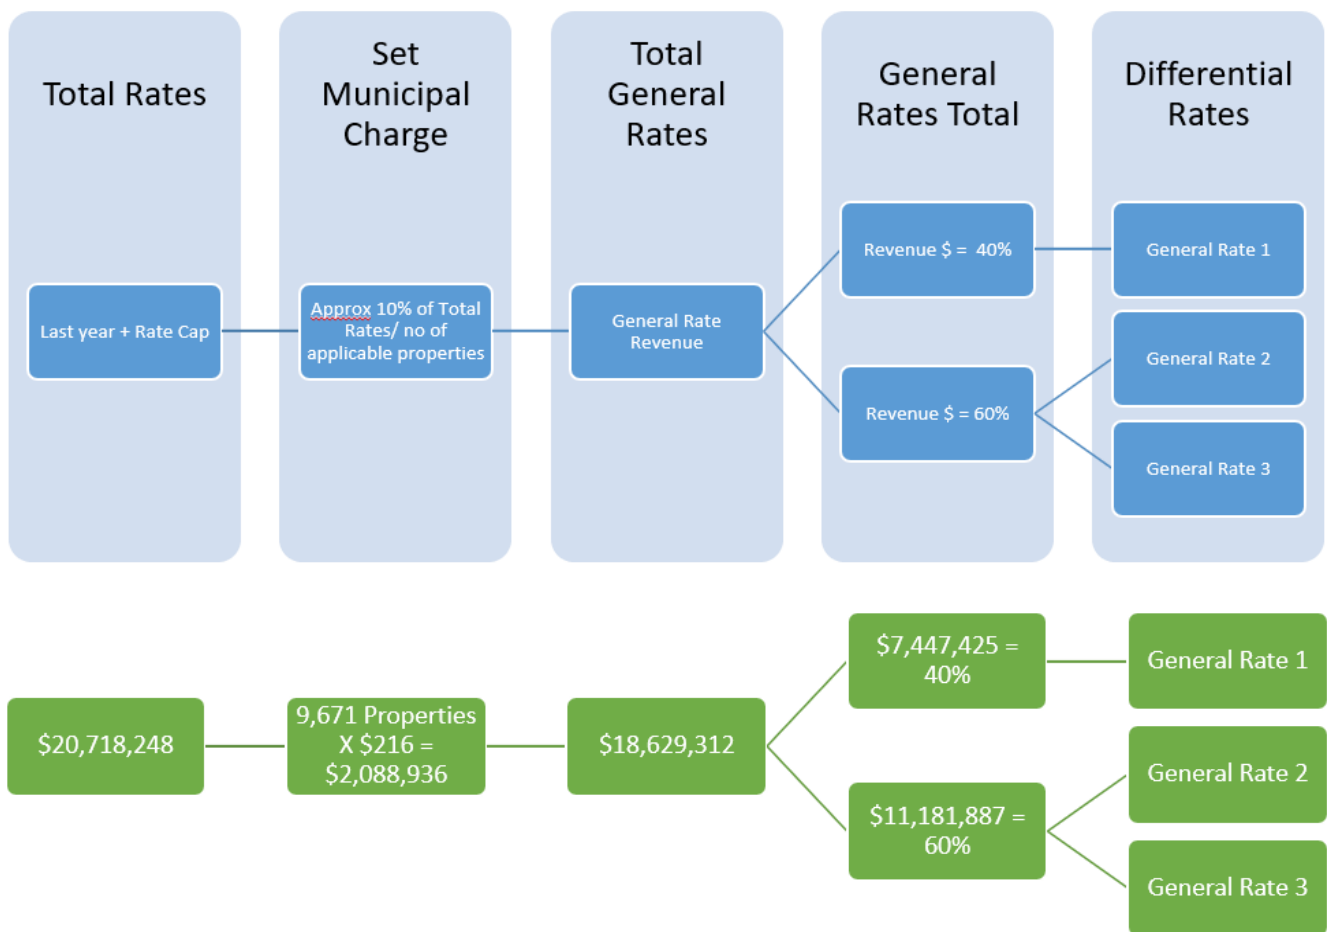

4.1 Comprehensive Income Statement

4.1.1 Rates and Charges

Rates and charges are required by the Act and the Regulations to be disclosed in Council’s budget. Council has also prepared a separate document, “Revenue and Rating Plan” which sets out in more detail, information about rating.

As per the Local Government Act 2020, Council is required to have a Revenue and Rating Plan which is a four year plan for how Council will generate income to deliver the Council Plan, program and services and capital works commitments over a four-year period.

The rate increase has been calculated using the following process:

Planning for future rate increases has been an important component of the Strategic Resource Planning process. The State Government have introduced the *Fair Go Rates System* (FGRS) which sets out the maximum amount councils may increase rates in a year. For 2023/24 the FGRS cap has been set at 3.5%. The cap applies to both general rates and municipal charges and is calculated on the basis of Council’s average rates and charges.

In developing the Budget, rates and charges were identified as an important source of revenue, accounting for around half of the total revenue received by Council annually (48% in 2022/23 Budget and 44% in 2023/24 Budget).

The level of required rates and charges has been considered in this context, with reference to Council’s other sources of income and the planned expenditure on services and works to be undertaken for the community.

To achieve these objectives while maintaining service levels and a strong capital expenditure program, the average general rate and the municipal charge will increase by 3.5% in line with the rate cap.

Service charges will however increase by 7% to ensure Council is working its way towards achieving a cost-neutral position for waste management.

This will raise total rates and charges (including kerbside collection) for 2023/24 to \$23,145,673.

4.1.1(a) The reconciliation of the total rates and charges to the Comprehensive Income Statement is as follows:

	2022/23	2023/24	Change	
	Forecast Actual \$'000	Budget \$'000	\$'000	%

4.1.1(m) Any significant changes that may affect the estimated amounts to be raised by rates and charges

There are no known significant changes which may affect the estimated amounts to be raised by rates and charges. However, the total amount to be raised by rates and charges may be affected by:

- The making of supplementary valuations;
- The variation of returned levels of value (e.g. valuation appeals);
- Changes in use of land such that rateable land becomes non-rateable land and vice versa;
- Changes in use of land such that residential land becomes business land and vice versa.

4.1.1(n) Differential rates

General Rate 1

A differential general rate of 0.00307951 cents in the dollar on the capital improved value of all rateable land in the parishes of North Hamilton and South Hamilton, excluding all farm land which comprises part of a single farm enterprise with an area of 40 hectares or more;

General Rate 2

A differential general rate of 0.0016248 cents in the dollar on the capital improved value of all rateable farm land in the parishes of North Hamilton and South Hamilton and which comprises part of a single farm enterprise with an area of 40 hectares or more;

General Rate 3

A differential general rate of 0.0016248 cents in the dollar on the capital improved value of all other rateable land in the Shire;

Objective of Differential Rating

Council believes each differential rate will contribute to the equitable and efficient delivery of Council functions. The purpose of levying differential general rates is to recognise the following inherent characteristics and historical circumstances:

- the different standard of municipal services provided to the residents and ratepayers in different areas of the Shire,
- the different range of municipal services available to the residents and ratepayers in different areas of the Shire,
- differences in the accessibility to municipal services for the residents and ratepayers in different areas of the Shire.

4.1.1(o) Special Rate – Yatchaw Drainage Authority

A Special Rate of 0.00013 cents in the dollar on the capital improved value of all rateable land in the Yatchaw Drainage Area.

4.1.2 Statutory fees and fines

Statutory fees relate mainly to fees and fines levied in accordance with legislation and include such items as building permits, animal registrations and parking fines.

4.1.7 Employee costs

Employee costs include all labour related expenditure such as wages and salaries and on-costs such as allowances, leave entitlements, employer superannuation, rostered days off, etc.

Operational Employee costs are estimated to increase by \$0.408 million to \$18.996 million compared to 2021/22 forecast Budget (\$18.588m). This amount varies from year to year due to the impact of a number of matters including additional works, resignations, redundancies, recruitment expenses, industrial relations advice and other associated on-costs as the workforce expands and contracts in line with service demands. These figures are substantially lower than previous years due to Council transitioning from the Home and Community Care Program during the 2022/23 financial year.

Other factors impacting employee costs are:

- Annual increment under Council's Enterprise Bargaining Agreement (EBA)
- Movement of staff through the banding system; and
- The balance of work carried out between operational projects and capital works.

Employees who work on capital works have their wages and associated on-costs charged to the asset category in the balance sheet of the projects.

	Forecast 2022/23 \$'000	Budget 2023/24 \$'000	Change \$'000	Change %

Total	18,588	18,996	408	2%

4.1.8 Materials and services

Materials and services include the purchases of consumables, payments to contractors for the provision of services and utility costs.

Whilst utility costs continue to escalate, Council has been implementing a number of energy efficient measures which will see the reduction of utilities in some services areas.

	Forecast 2022/23	Budget 2023/24	Change	Change

4.1.9 Bad and doubtful debts

Bad and doubtful debts are negligible for Council.

4.1.10 Depreciation and amortisation

Depreciation is an accounting measure which attempts to allocate the value of an asset over its useful life for Council's property, plant and equipment including infrastructure assets such as roads and drains. Council has estimated the depreciation expense for the 2022/23 year and used this as the basis for the 2023/24 year. This amount is an estimate only as Council constantly re-values assets; however, these calculations will not be processed until the end of the 2022/23 financial year.

The majority of the reduction relates to assets which have reached the end of their lives and have been fully depreciated, but still in use.

	Forecast 2022/23	Budget 2023/24	Change	Change
	\$'000	\$'000	\$'000	%

Other Assets	1,130	1,356	226	20%
Total	11,976	12,611	635	5%

4.1.11 Borrowing costs

Borrowing costs relate to interest charged by financial institutions on funds borrowed. The reduction in borrowing costs results from the planned reduction in borrowings due to repayment of principal in accordance with loan agreements.

A new loan of \$8 million is incorporated in the 2023/24 budget.

4.1.12 Other items of expense

Other items of expense relate to a range of unclassified items including contributions to community groups, advertising, insurances and other miscellaneous expenditure items.

Total	4,928	4,249	(679)	(14%)

4.1.13 Adjusted underlying surplus/deficit

The adjusted underlying result is the net surplus or deficit for the year adjusted for non-recurrent capital grants, non-monetary asset contributions, and capital contributions from other sources. It is a measure of financial sustainability and Council's ability to achieve its service delivery objectives as it is not impacted by capital income items which can often mask the operating result.

The adjusted underlying result for the 2023/24 year is a deficit of \$3.607 million which is an increase of \$7.165 million from the projected 2022/23 year underlying deficit of \$10.772 million. In calculating the adjusted underlying result, Council has excluded grants received for capital purposes which are non-recurrent or are not matched to operating expenses and capital contributions from other sources. Contributions of non-monetary assets are excluded as the value of assets assumed by Council is dependent on the level of development activity each year.

See Note 4.1.5 for a detailed listing of all capital grants.

	Forecast 2022/23 \$'000	Budget 2023/24 \$'000	Variance \$'000

4.2 Balance Sheet

4.2.1 Assets

Cash and cash equivalents include cash and investments such as cash held in the bank and in petty cash and the value of investments in deposits or other highly liquid investments with short term maturities of three months or less. These balances are projected to decrease by \$10.715 million during the year mainly due to the value of capital works and capital funding received for multiple year projects.

Trade and other receivables are monies owed to Council by ratepayers and others. Short-term debtors are not expected to change significantly in the budget. Long-term debtors (non-current) relating to loans to community organisations and principal and interest debtors for private streets, Kerb & Channel and Footpath Schemes will decrease in accordance with agreed repayment terms.

Other assets includes items such as prepayments for expenses that Council has paid in advance of service delivery, inventories or stocks held for sale or consumption in Council's services and other revenues due to be received in the next 12 months.

Property, infrastructure, plant and equipment is the largest component of Council's worth and represents the value of all the land, buildings, roads, vehicles, equipment, etc. which has been built up by Council over many years. The \$27.481 million increase in this balance is attributable to the net result of the capital works program (\$40.342 million of additional asset value), less depreciation of assets (\$12.611 million) and sale of plant and equipment (\$0.250 million).

Non current assets held for sale includes land around the Lakes Edge Development and Hamilton Gateways Industrial land lots.

4.2.2 Liabilities

Trade and other payables are those to whom Council owes money as at 30 June. These liabilities are generally budgeted to remain consistent with 2021/22 levels.

Provisions include accrued long service leave, annual leave and rostered days off owing to employees. These employee entitlements are also expected to remain constant due to active management of entitlements despite factoring in an increase for Collective Agreement outcomes. However an adjustment has been made to take into consideration the reduced amount of employee provisions required following Council's transition away from the provision of Home and Community Care Programs and the subsequent reduction in its workforce.

Interest-bearing loans are classified as a liability, details of which are shown in the note below.

4.2.3 Borrowings

Council is budgeting to repay loan principal of \$0.585 million over the year for existing loans.

Council is anticipating borrowing \$8 million in the 2023/24 year followed by subsequent borrowing to fund a number of large intergenerational projects.

The table below shows information on borrowings.

	2022/23 \$	2023/24 \$
Total amount borrowed as at 30 June of the prior year	2,382	1,834
Total amount to be borrowed	0	8,000
Total amount projected to be redeemed	(548)	(585)
Total amount proposed to be borrowed as at 30 June	1,834	9,249

4.2.4 Working Capital

Working capital is the excess of current assets above current liabilities. This calculation recognises that although Council has current assets, some of those assets are already committed to the future settlement of liabilities in the following 12 months, and are therefore not available for discretionary spending.

Council anticipates to have working capital at year end 2022/23 of \$4.962 million (current assets \$15.837 million less current liabilities \$10.875 million). Council will need to manage its cash payments and receipts carefully to maintain a positive cash balance. It should be noted that \$6.976 of this is land held for sale and may take a number of years to convert to cash.

Some of Council's cash assets are restricted in that they are required by legislation to be held in reserve for specific purposes or are held to fund carry forward capital works from the previous financial year.

4.3 Statement of Changes in Equity

Total equity always equals net assets and is made up of the following components:

- Asset revaluation reserve which represents the difference between the previously recorded value of assets and their current valuations; and
- Other reserves that are funds that Council wishes to separately identify as being set aside to meet a specific purpose in the future and to which there is no existing liability. These amounts are transferred from the Accumulated Surplus of the Council to be separately disclosed.

	Forecast 2022/23 \$'000	Budget 2023/24 \$'000	Variance \$'000
Accumulated Surplus	143,759	150,709	6,950
Reserve – Asset Revaluation	298,805	298,805	-
Reserve – Open Space/Subdividers Contributions*	57	57	-
Reserve – Parking Development	20	20	-
Reserve – Drainage Headworks	97	97	-
	442,738	449,688	6,950

Subdividers Contributions are in lieu of provision of recreational land within a subdivision. These funds are used to develop strategically located parks and reserves for the benefit of residents in the general area, as provided in the Subdivision Act 1988 and Planning and Environment Act 1987.

The Parking Development Reserve is in lieu of provision of off-site parking as part of a development. These funds are used for the purchase and development of public access parking in the general area.

The Drainage Headworks Reserve is in lieu of meeting the cost to develop, upgrade and/or renew drainage infrastructure downstream of any subdivision development, a charge is levied on subdivision developers.

Note - * Denotes Statutory Reserve – other reserves are the result of a Council resolution only.

4.4 Statement of Cash Flows

4.4.1 Operating activities

The increase in cash inflows from operating activities is due mainly to increases in operating grants and capital grants.

The net cash flows from operating activities does not equal the surplus (deficit) for the year as the expected revenues and expenses of the Council include non-cash items which have been excluded from the Cash Flow Statement. The budgeted operating result is reconciled to budgeted cash flows available from operating activities as set out in the following table.

	Forecast 2022/23 \$'000	Budget 2023/24 \$'000	Variance \$'000
Surplus (deficit) for the year from operating activities	(5,277)	6,951	12,228
Depreciation	11,976	12,611	635
Loss (gain) on disposal Assets	0	0	0
Loss on impairment of Assets	0	0	0
Net movement in current assets and liabilities	72	43	(29)
Cash flows available from operating activities	6,771	19,605	12,834

4.4.2 Investing activities

The increase in payments for investing activities (\$40.342 million) represents the planned increase in net capital works expenditure – Note 4.5 explains how this investment is funded.

Proceeds from the sale of assets are estimated to be \$2.65 million, and includes plant, equipment, commencement of sales from the Hamilton Industrial Estate and other land sales.

4.4.3 Financing activities

For 2023/24 the total of principal repayments is projected to be \$0.585 million and finance charges are projected to be \$0.043 million. Council is also budgeting to take up a new loan of \$8 million.

4.4.4 Cash and cash equivalents at end of the year

Overall, total cash and investments is forecast to decrease by \$10.715 million to \$4.554 million as at 30 June 2024, reflecting Council's strategy of using cash and investments to enhance existing and create new infrastructure before borrowing.

4.4.5 Restricted and unrestricted cash and investments

Cash and cash equivalents held by Council are restricted in part, and not fully available for Council's operations. The budgeted cash flow statement above indicates that Council is estimating at 30 June 2024 it will have cash and investments of \$4.554 million, which has been restricted as shown in the following table.

There are also a number of discretionary reserves which Council desires to have backed by cash, however there is no requirement to do so. These funds are used to assist with cash management throughout the year and then replaced when able.

	Forecast 2022/23 \$'000	Budget 2023/24 \$'000	Variance \$'000
Total cash and investments	15,269	4,554	(10,715)

Total Discretionary Reserves/Funds	5,657	5,657	-
Unrestricted cash adjusted for discretionary Reserves	9,105	(1,610)	(10,715)

4.4.5a Statutory Reserves

These funds must be applied for specified statutory purposes in accordance with various legislative requirements. While these funds earn interest revenues for Council, the funds are not available for other purposes.

4.4.5b Trust Funds & Deposits

These funds must be applied for specified statutory purposes in accordance with various legislative requirements. While these funds earn interest revenues for Council, the funds are not available for other purposes.

4.4.5c Discretionary reserves/Funds

These funds are shown as discretionary reserves as, although not restricted by a statutory purpose, Council has made decisions regarding the future use of these funds and unless there is a Council resolution, these funds should be used for those earmarked purposes. Each of these reserves/funds are backed by cash investments.

4.4.5d Unrestricted cash adjusted for discretionary reserves

These funds are free of all specific Council commitments and represent funds available to meet daily cash flow requirements, unexpected short-term needs and any budget commitments which will be expended in the following year such as grants and contributions. Council regards these funds as the minimum necessary to ensure that it can meet its commitments as and when they fall due without borrowing further funds.

4.5 Capital Works Program

4.5.1 Funding sources

Total funding sources	14,664	40,342	25,678

4.5.1a Grants

Capital grants include all monies received from State and Federal sources for the purposes of funding the capital works program. Council is anticipating government grant funding from Roads to Recovery for local roads \$1.985m, \$1.985m for Local Roads & Community Infrastructure Program Round 4 (which has not yet been allocated to projects), \$3.846m for Melville Oval plus \$1.985 of Local Roads & Community Infrastructure Program Round 3 which is also allocated to Melville Oval, \$300k for the Dunkeld-Mount Sturgeon Loop Walk, \$250k for the Coleraine Silvester Oval power and lighting upgrade project (this is coupled with a \$115k contribution), \$500k for Waste Options Implementation, \$840k for Hamilton Botanic Gardens and \$502k as the final payment for the Cox Street Project.

4.5.1b Council cash - proceeds from sale of assets

Proceeds from sale of assets include construction fleet and motor vehicle sales \$250k together with anticipated sales of the Hamilton industrial Park allotments \$1.2 million and Lakes Edge land \$1.2 million.

4.5.1c Council cash - unrestricted cash and investments

In addition to reserve investments, Council has uncommitted cash and investments which represent unrestricted cash and investments.

Key to Forecast Trend:

- + Forecasts improvement in Council's financial performance/financial position indicator
- o Forecasts that Council's financial performance/financial position indicator will be steady
- Forecasts deterioration in Council's financial performance/financial position indicator

Notes to indicators –

1. Adjusted underlying result – An indicator of the sustainable operating result required to enable Council to continue to provide core services and meet its objectives. Improvement in financial performance is required over the longer term as continued losses means reliance on Council's cash reserves or increased debt to maintain services.

2. Working Capital – The proportion of current liabilities represented by current assets. Working capital is forecast to decrease in 2023/24 after a high levels in past years. This decrease is to fund the capital program. The trend in later years is declining to a lower than acceptable level. It should also be noted that Council holds land held for resale which is classified as a current asset, but make take a number of years to convert to cash.

3. Debt compared to rates - Trend indicates Council is balancing debt against its annual rate revenue as a planned lever to allow additional capital investment whilst maintaining a conservative percentage of borrowing. Currently, Council debt is only 8.2%, rising to 92.3% of rate revenue at the end of 2025/26 which is higher than the prudential level of 80%, but reduces to that level the following year.

4. Asset renewal - This percentage indicates the extent of Council's renewal of assets against its depreciation charge (an indication of the decline in value of its existing capital assets). A percentage greater than 100 indicates Council is maintaining its existing assets, while a percentage less than 100 means its assets are deteriorating faster than they are being renewed and future capital expenditure will be required to renew assets.

This indicator shows Council is investing above its requirement, as it proposes to replace several valuable but aged intergenerational assets.

Generally over the longer term, Council has been achieving around 80% of its renewal target, however, some of the renewal gap is absorbed into asset upgrade and expansion works. Council is also reviewing its asset portfolio to reveal any assets that are not required to be renewed which are inflating the required renewal target and incurring depreciation charges.

5. Rates concentration - Reflects extent of reliance on rate revenues to fund all of Council's on-going services. Trend indicates Council is continuing to be reliant on rate revenue compared to all other revenue sources.
