Mayor's introduction

On behalf of your elected Council it gives me great pleasure to present the 2019-2020 budget to the community of Southern Grampians Shire.

Following on from the development of an aspirational, whilst deliverable, Council Plan 2017-21 that informed the development of the Strategic Resource Plan 2017-21, and over the past two years, Council commenced turning these plans and aspirations into reality and this 2019/20 Budget continues that work.

Council continues to revise the Strategic Resource Plan, to review all costings and actively explore opportunities to find efficiencies and savings internally and externally along with external sources of revenue. The service planning process, now to be linked with our asset management approach, will assist us in providing further clarification about current services and levels with an informed view to consult with our communities about appropriateness and level of service and the costs associated with each of our services. We will also continue our focus on partnerships and collaboration both with providers locally and regionally with our neighbouring Councils to review service models, increase efficiencies and drive down costs whilst continuing to explore other revenue streams.

Council is focused on delivering quality services for the community whilst being conscious of the longer term financial impacts. Council also understands that the community has high expectations and it is important that Council continues to identify efficiencies and reviews all activities against community identified priorities. The year past saw our inaugural "Year In Review" that hopefully started to engage with the community on where our energies are focussed and what had been achieved in the past twelve months. This is planned to continue and to grow with information and link to our recently concluded Listening Posts to have an informed view about those community priorities.

The 2019/20 proposed budget includes a number of key initiatives that continue to deliver on the Council Plan 2017-21:

- Commencing the delivery of priority improvements to recreation and leisure facilities in response to the findings of the Recreation and Leisure Strategy, including Lake Hamilton & Pedrina Park
- Continuing the feasibility steps for a new Hamilton Art Gallery
- Delivery of the capital upgrades (including cattle yards roofing) at the Hamilton Regional Livestock Exchange (HRLX) whilst continuing the implementation of the marketing strategies to grow the business
- Delivering detailed designs and commencing implementation of Stage 2 of the Hamilton CBD Revitalisation Project - Lonsdale St/Melville Oval/Gray Street
- Implementing the next round of actions from 2018 energy audits at Council facilities, and
- Continuing advocacy on key Council priorities to Regional (Great South Coast & Grampians) State and Federal Governments

The total Capital Works program of just over \$23 million includes significant investment in roads, bridges, footpaths and associated infrastructure works.

Highlights of the Capital Works Program include:

- Continuing a significant investment into local roads, bridges and associated infrastructure
- Finalising construction of the serviced industrial land
- Finalising the 2016 Flood Impact repairs and reinstatement works and transition to business as usual
- Delivery of the Cox Street Front Door project
- Delivery of the first phase of the Hamilton Gateways Strategy
- Implementation of works associated with Councils Buildings Asset Management Strategy.

On behalf of my Councillor colleagues and the Southern Grampians Shire Council organisation, I commend this 2019/20 Annual Budget to the community and look forward to delivering and reporting back to the community in 12 months on our achievements and successes.

Cr Mary-Ann Brown
Mayor

Executive Summary

Council has prepared a Budget for 2019/20 which is aligned to the vision in the Council Plan 2017-21. It seeks to ensure our services meet community needs and infrastructure delivers for each of our services as well as deliver projects and services that are valued by our community, and do this within the rate increase mandated by the State Government.

This Budget projects a surplus of \$19.952 for 2019/20, however, it should be noted that the adjusted underlying result is a surplus of \$0.290m after adjusting for capital grants and contributions.

E4. Budget influences

This section sets out the key budget influences arising from the internal and external environment within which the Council operates.

External influences

In preparing the 2019/20 Budget, a number of external influences have been taken into consideration because they are likely to impact significantly on the services delivered by Council in the budget period. These include:

- The need to renegotiate Enterprise Bargaining Agreements (“EBA”) every 3 years.
- The increased demand for Council services and the need to review all services to ensure they are responsive, appropriate and efficient.
- Irregular funding from Victoria Grants Commission. A static period of 3 years together with only modest increases prior to and after this period, has eroded the index base and resulted in a loss of over \$1m. A conservative increase of 2% has been assumed in this budget.
- Roads to Recovery V funding from 2019–2024 - \$9.926m over the five years compared to \$13m over the 2014-2019 program.
- Continuing escalation of utility costs essential for carrying out services (water, power, communications and insurances).
- Significant changes to funding regimes for community services involving the implementation of the NDIS (National Disability Insurance Scheme), CHSP (Commonwealth Home Support Programme) and other funding streams coupled with the competitive requirements and in some cases market failure to provide these essential services has left Council needing to review its role in this service area.
- The continuation of rate-capping by the State Government – set at 2.5% for 2019/20,
- The increased costs across the organisation of meeting compliance standards set by other levels of government.

Internal influences

As well as external influences, there are also a number of internal influences which are expected to have a significant impact on the preparation of the 2019/20 Budget.

- Continuing increases in the demand and associated costs to improve waste management service levels (Landfills, Transfer Stations and Refuse/Recycling collections) along with imposition of strict guidelines from government in regard to management practices.
- The need for improved asset management practices to ensure efficient and effective use of Council's physical resources.
- Continuing escalation of costs in relation to the maintenance and renewal of Council's ageing infrastructure assets.
- The need for more detailed planning of major developments to ensure optimum long term asset longevity.

In an effort to reduce the impact of these matters, Council has embarked on a service delivery realignment to ensure resources align with the services provided and compliment the direction of the newly created Council Plan.

Exceptional Events

During September 2016 the Shire experienced storm related flooding and damage in several communities. The result has been damage to privately owned assets, Community/Crown assets and Council assets.

Council assets include such classes as roads, kerbs, bridges, footpaths/walking tracks, buildings, sporting facilities and playgrounds.

Funding assistance has been committed from both Federal and State Governments, however the exact magnitude of both the revenue and expenses (as well as asset damage) is a continuing challenge.

It is anticipated that these works will be completed by 30 June 2019, therefore no further allowance for works or funding has been incorporated into the 2019/20 budget. However it should be noted that these significant sums in prior years have made financial comparability and some ratio estimates to be inconsistent. Notes have been made where appropriate.

E5. Budget principles

Guidance is provided to all Council officers with budget responsibilities. These key budget principles upon which the officers were to prepare their budgets included:

- Existing fees and charges to be increased in line with CPI or market levels.
- Grants to be based on confirmed funding levels.
- New revenue sources to be identified where possible.
- Service levels to be maintained at 2018/19 levels with the aim to use less resources with an emphasis on innovation and efficiency.
- Contract labour to be minimised.
- New initiatives or employee proposals to be justified through a business case.
- Real savings in expenditure and increases in revenue identified in 2018/19 to be preserved
- Operating revenues and expenses arising from completed 2018/19 capital projects to be included.

Cost escalations for the preparation of the 2019/20 budget onwards include:

- Rate revenue to be projected at 2.5% - the current year rate cap
- Refuse and Recycling charges at 12.17% to address the continued rising cost of dealing with waste management and in particular the current cost of recycling material.
- Operating Grants increasing at 2%
- Capital Grants only included where some level of surety arises and linked directly to a specific capital project.
- Continuation of the Roads to Recovery program for a further 5 year period at committed levels to 2023/24.
- User Fees and Charges increasing in line with service reviews
- Statutory Fees and Charges only increasing where legislation is known
- Employees costs increasing at 3% (2% base with 1% for oncosts)
- Materials & consumables increasing at 4%
- Utilities and other operating expenses increasing at 3%

E6. Budget processes

This section lists the budget processes to be undertaken in order to adopt the Budget in accordance with the *Local Government Act 1989* (the Act) and *Local Government (Planning and Reporting) Regulations 2014* (the Regulations).

Under the Act, Council is required to prepare and adopt an annual budget for each financial year. The budget is required to include certain information about the rates and charges that Council intends to levy as well as a range of other information required by the Regulations which support the Act.

The 2019/20 budget, which is included in this report, is for the year 1 July 2019 to 30 June 2020 and is prepared in accordance with the Act and Regulations. The budget includes financial statements being a Comprehensive Income Statement, Balance Sheet, Statement of Changes in Equity, Statement of Cash Flows and Statement of Capital Works. These statements have been prepared for the year ending 30 June 2020 in accordance with the Act and Regulations, and consistent with the annual financial statements which are prepared in accordance with Australian Accounting Standards. The budget also includes information about the rates and charges to be levied, the capital works program to be undertaken, the human resources required, and other financial information Council requires in order to make an informed decision about the adoption of the budget.

In advance of preparing the budget, officers firstly review and update Council's long term financial projections. Financial projections for at least four years are ultimately included in Council's Strategic Resource Plan, which is the key medium-term financial plan produced by Council on a rolling basis. The preparation of the budget, within this broader context, begins with officers preparing the operating and capital components of the annual budget during January and February. A draft consolidated budget is then prepared and various iterations are considered by Council at informal briefings during March and April. A 'proposed' budget is prepared in accordance with the Act and submitted to Council in late April/early May for approval 'in principle'. Council is then required to give 'public notice' that it intends to 'adopt' the budget. It must give 28 days' notice of its intention to adopt the proposed budget and make the budget available for inspection at its offices and on its web site. A person has a right to make a submission on any proposal contained in the budget and any submission must be considered before adoption of the budget by Council.

The final step is for Council to adopt the budget after receiving and considering any submissions from interested parties. Generally the budget is required to be adopted by 30 June and a copy submitted to the Minister within 28 days after adoption.

The key dates for the budget process are summarised below:

Planned Budget process	Timing
1. Officers update Council's long term financial projections	Dec/Jan
2. Officers prepare operating and capital budgets	Jan/Feb
3. Councillors consider draft budgets at informal briefings	Mar/Apr
4. Proposed budget submitted to Council for approval	Late Apr
5. Public notice advising intention to adopt budget	Early May
6. Budget available for public inspection and comment	Early May
7. Public submission process undertaken	May
8. Submissions period closes (28 days)	Early Jun
9. Submissions considered by Council/Committee	Mid Jun
10. Budget and submissions presented to Council for adoption	Late Jun
11. Copy of adopted budget submitted to the Minister	Jun
12. Revised budget where a material change has arisen	Sep-Jun

Budget Reports

The following reports include all statutory disclosures of information and are supported by the analysis contained in sections 8 to 15 of this report.

This section includes the following reports and statements in accordance with the Local Government Act 1989 and the Local Government Model Financial Report.

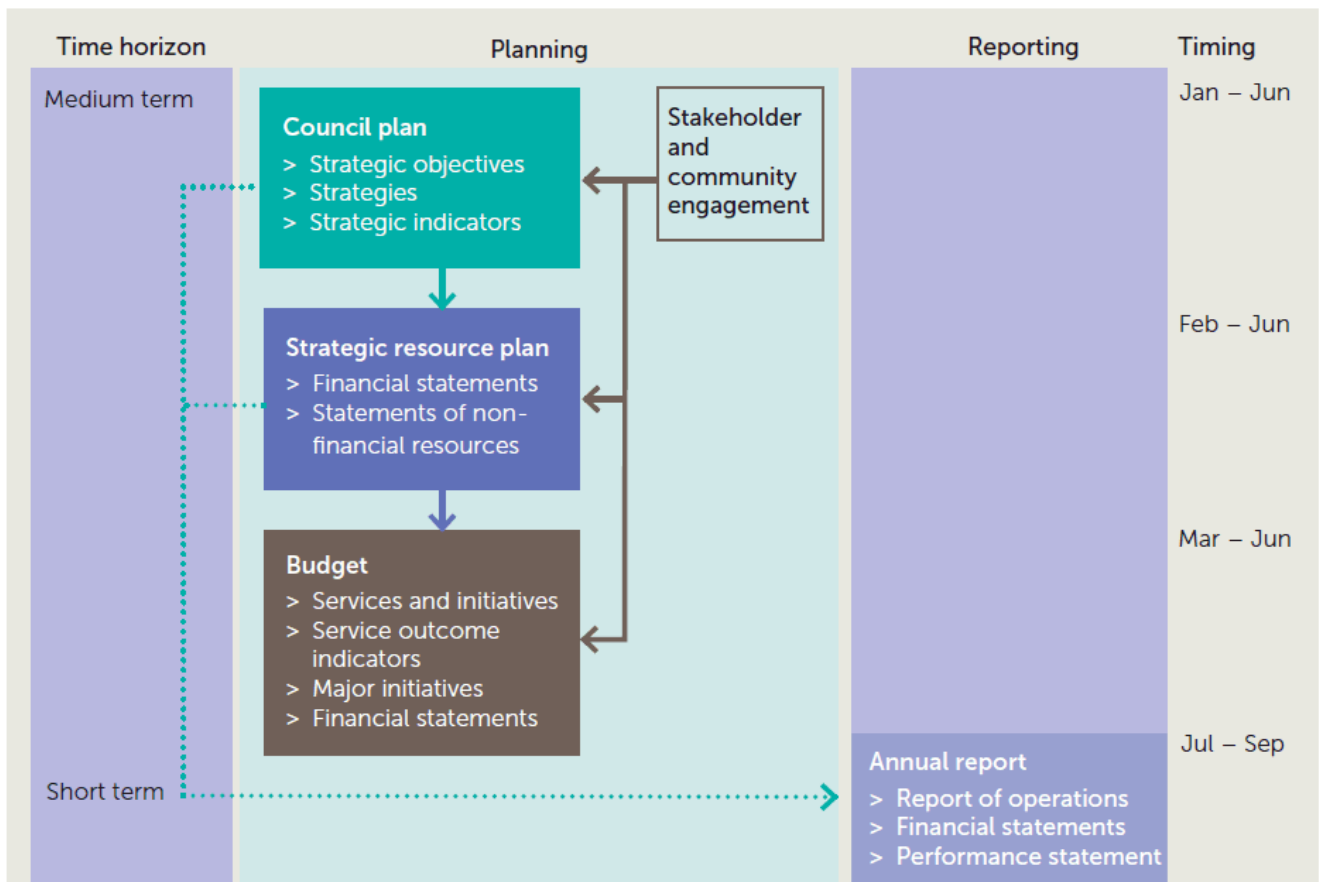

1. Links to Council Plan
2. Services and service indicators
3. Financial statements
4. Notes to the Financial Statements
5. Financial Performance Indicators

1. Linkage to the Council Plan

This section describes how the Annual Budget links to the achievement of the Council Plan within an overall planning and reporting framework. This framework guides the Council in identifying community needs and aspirations over the long term, medium term (Council Plan) and short term (Annual Budget) and then holding itself accountable (Annual Report).

1.1 Planning and accountability framework

The Strategic Resource Plan, part of and prepared in conjunction with the Council Plan, is a rolling four year plan that outlines the financial and non-financial resources that Council requires to achieve the strategic objectives described in the Council Plan. The Annual Budget is framed within the Strategic Resource Plan, taking into account the services and initiatives which contribute to achieving the strategic objectives specified in the Council Plan. The diagram below depicts the planning and accountability framework that applies to local government in Victoria.

Source: Department of Environment, Land, Water and Planning (formerly Department of Transport, Planning and Local Infrastructure)

The timing of each component of the planning framework is critical to the successful achievement of the planned outcomes. The Council Plan, including the Strategic Resource Plan, is required to be completed by 30 June following a general election and is reviewed each year in advance of the commencement of the Annual Budget process.

1.2 Our Vision & Values

Our Vision

'That Southern Grampians Shire will be recognised as a well-connected, dynamic Regional Centre, supporting a vibrant, healthy and inclusive community'

To achieve this vision, we have developed five fundamental priority areas and these themes will guide the development and implementation of Council's objectives and strategies.

Our Values

Southern Grampians has a clear strength in the bond and affinity between its Councillors, the community and staff. Staff support the community leadership and governance role of Councillors, and work together to achieve the commitments of the Council Plan.

Having all Southern Grampians staff and Councillors practise the following organisational values, which were identified by staff and Councillors as being of the highest importance, will enhance the quality of this partnership.

- **Innovative:** we will be open to new ideas, will welcome creativity and embrace change
- **Respectful:** we will be caring, accept difference and value diversity
- **Collaborative:** together we will work smarter to achieve agreed common goals
- **Trusting:** we will be open, honest and brave
- **Empowering:** we will delegate opportunities and develop and inspire success

1.3 Themes and Strategic objectives

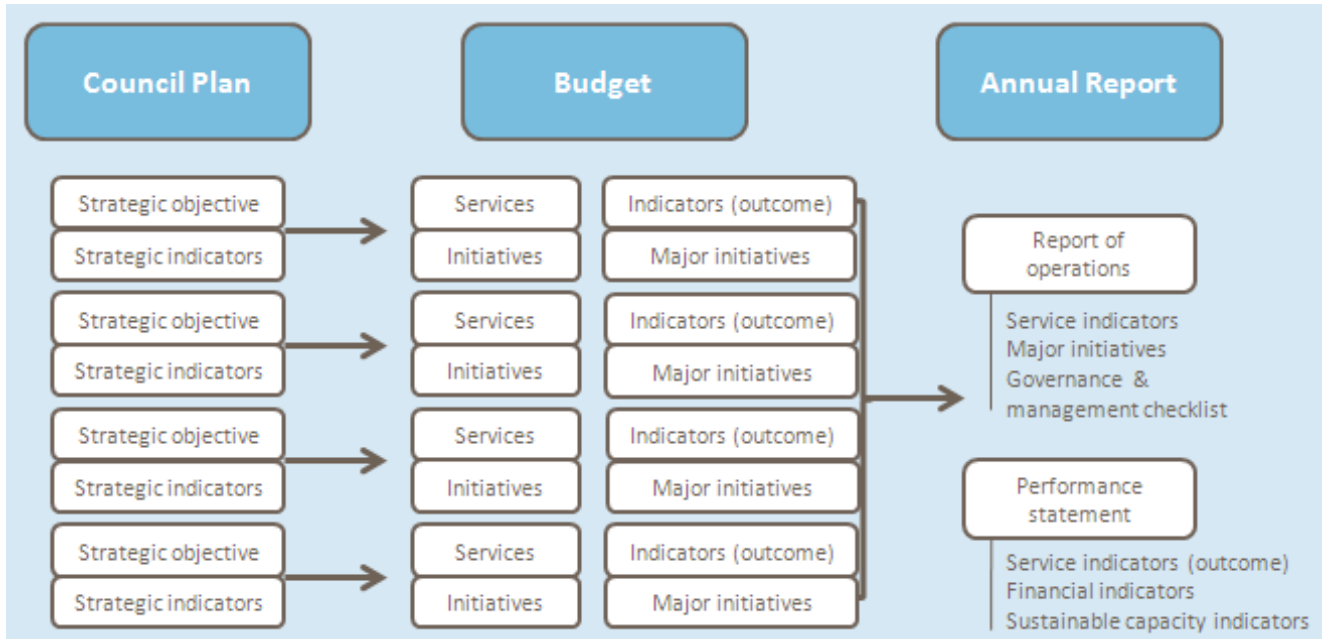

Council delivers services and initiatives under 70 service categories. Each service contributes to the achievement of the Strategic Objectives as set out in the Council Plan for the years 2017- 21.

The following table lists the five Themes and Strategic Objectives as described in the Council Plan.

5. Provide Governance and Leadership	5.1 Provide transparent and responsible governance 5.2 Deliver effective advocacy 5.3 Create an environment that supports committed and skilled staff 5.4 Deliver efficient and customer focused services

2. Services and Service Performance Indicators

This section provides a description of the services and initiatives to be funded in the budget for the 2019/20 year and how these will contribute to achieving the strategic objectives outlined in the Council Plan. It also describes a number of major initiatives and service performance outcome indicators for key areas of Council's operations. Council is required by legislation to identify major initiatives, Minor initiatives and service performance outcome indicators in the budget and report against them in their Annual Report to support transparency and accountability. The relationship between these accountability requirements in the Council Plan, the Budget and the Annual Report is shown below.

4. Notes to the Financial Statements

4.1 Comprehensive Income Statement

4.1.1 Rates and Charges

Planning for future rate increases has been an important component of the Strategic Resource Planning process. The State Government have introduced the *Fair Go Rates System* (FGRS) which sets out the maximum amount councils may increase rates in a year. For 2019/20 the FGRS cap has been set at 2.5%. The cap applies to both general rates and municipal charges and is calculated on the basis of council's average rates and charges.

In developing the Strategic Resource Plan, rates and charges were identified as an important source of revenue, accounting for around 48% of the total revenue received by Council annually.

The 2019/20 underlying operating position is adversely impacted by the lack of increase in recurrent government funding, rate capping and continued increases in operating expenditure. It will therefore be necessary to achieve future revenue growth while containing costs in order to achieve a trend back towards a breakeven operating position in future years. The impact of natural disasters, in particular flooding, together with the necessity to develop "regional use" assets which attract capital funding, increase the operational burden to Council.

Total general rates and charges will increase by 3.27%, however the distribution of the increase is not consistent across all charge types and land classifications. Municipal and service charges are increased and rounded to the nearest dollar with the remaining revenue distributed across the properties according the rating policy and land use classification.

A general revaluation has also been received which may move the rate burden between the different land classifications as compared to the previous year.

It is proposed that income raised by all rates and municipal charges will be increased by 2.48% or \$0.452 million over total 2018/19 revenue to \$18.709 million.

Service charges will increase by 11.38%, to ensure Council is achieving a cost neutral position for waste management.

4.1.1(a) The rate in the dollar to be levied as general rates under Section 158 of the Act for each type or class of land compared with the previous financial year

4.1.1(k) Any significant changes that may affect the estimated amounts to be raised by rates and charges

There are no known significant changes which may affect the estimated amounts to be raised by rates and charges. However, the total amount to be raised by rates and charges may be affected by:

- The making of supplementary valuations;
- The variation of returned levels of value (e.g. valuation appeals);
- Changes in use of land such that rateable land becomes non-rateable land and vice versa;
- Changes in use of land such that residential land becomes business land and vice versa.

4.1.1(l) Differential rates

General Rate 1

A differential general rate of 0.004469 cents in the dollar on the capital improved value of all rateable land in the parishes of North Hamilton and South Hamilton, excluding all farm land which comprises part of a single farm enterprise with an area of 40 hectares or more;

General Rate 2

A differential general rate of 0.003575 cents in the dollar on the capital improved value of all rateable farm land in the parishes of North Hamilton and South Hamilton and which comprises part of a single farm enterprise with an area of 40 hectares or more;

General Rate 3

A differential general rate of 0.003575 cents in the dollar on the capital improved value of all other rateable land in the Shire;

Each differential rate will be determined by multiplying the Capital Improved Value of rateable land (categorised by the characteristics described below) by the relevant percentages indicated above

4.1.1(m) Special Rate – Yatchaw Drainage Authority

A Special Rate of 0.000323 cents in the dollar on the capital improved value of all rateable land in the Yatchaw Drainage Area.

4.1.6 Other Revenue

Other revenue includes Contributions, reimbursements and other minor sources of revenue for various services provided by Council.

Contributions relate to money received from community groups or other bodies to assist in the funding of both capital and operating Projects. A list of Contributions by service and purpose, classified into capital and operating are show below.

Reimbursements are expenditure that is incurred by Council on behalf of another organisation and then recompensed after the event. Some of the Flood Recovery works have fallen in this category as Insurance reimbursements.

4.1.7 Employee costs

Employee costs include all labour related expenditure such as wages and salaries and on-costs such as allowances, leave entitlements, employer superannuation, rostered days off, etc.

Operational Employee costs are estimated to increase by \$0.692 million to \$17.090 million compared to 2018/19 Adopted Budget (\$16.398m). This amount is less than the 2018/19 Forecast (\$17.254 million) which is higher than both years budgets due to the impact of a number of matters including additional works, resignations, redundancies, recruitment expenses, industrial relations advice and other associated oncosts. The budget allocation for 2019/20 is actually \$0.164 million less than the 2018/19 forecast.

Other factors impacting employee costs are:

- Annual increment Council's Enterprise Bargaining Agreement (EBA) currently under negotiation;
- Movement of staff through the banding system; and
- The balance of work carried out between operational projects and capital works.

Employees who work on capital works have their wages and associated oncosts charged to the asset category in the balance sheet of the projects.

4.1.8 Materials and services

Materials and services include the purchases of consumables, payments to contractors for the provision of services and utility costs.

Whilst utility costs continue to escalate, Council has been implementing a number of energy efficient measures which will see the reduction of utilities in some services areas.

	Forecast 2018/19 \$'000	Budget 2019/20 \$'000	Change \$'000	Change %

4.1.9 Bad and doubtful debts

Bad and doubtful debts are negligible for Council.

4.1.10 Depreciation and amortisation

Depreciation is an accounting measure which attempts to allocate the value of an asset over its useful life for Council's property, plant and equipment including infrastructure assets such as roads and drains.

Council has estimated the depreciation expense for the 2018/19 year and used this as the basis for the 2019/20 year. This amount is an estimate only as Council constantly re-values assets; however these calculations will not be processed until the end of the 2018/19 financial year.

The majority of the reduction relates to assets which have reached the end of their lives and have been fully depreciated, but still in use.

	Forecast 2018/19 \$'000	Budget 2019/20 \$'000	Change \$'000	Change %
Property, Furniture & Fittings	1,869	1,712	(157)	(8%)

Yatchaw Drainage Scheme	6	6	0	0
Other Assets	1,260	1,063	(198)	(16%)
Total	11,017	10,072	(945)	(9%)

4.1.11 Borrowing costs

Borrowing costs relate to interest charged by financial institutions on funds borrowed. The reduction in borrowing costs results from the planned reduction in borrowings due to repayment of principal in accordance with loan agreements.

No new loans were taken up in 2018/19, however a loan of \$2 million is anticipated in the 2019/20 year.

4.1.12 Other items of expense

Other items of expense relate to a range of unclassified items including contributions to community groups, advertising, insurances and other miscellaneous expenditure items.

Whilst the overall increase is \$426k, waste disposal costs have increased by \$523k with other line items decreasing.

4.1.13 Adjusted underlying deficit

The adjusted underlying result is the net surplus or deficit for the year adjusted for non-recurrent capital grants, non-monetary asset contributions, and capital contributions from other sources. It is a measure of financial sustainability and Council's ability to achieve its service delivery objectives as it is not impacted by capital income items which can often mask the operating result.

The adjusted underlying result for the 2019/20 year is a deficit of \$1.454 million which is an increase of \$1.744 million from the projected 2018/19 year. In calculating the adjusted underlying result, Council has excluded grants received for capital purposes which are non-recurrent or are not matched to operating expenses and capital contributions from other sources. Contributions of non-monetary assets are excluded as the value of assets assumed by Council is dependent on the level of development activity each year.

	Forecast Actual 2018/19 \$'000	Budget 2019/20 \$'000	Variance \$'000
Total income	69,211	42,787	(26,424)
Total expenses	(49,259)	(42,026)	7,233
Surplus (deficit) for the year	19,952	761	(19,191)
Grants – capital non-recurrent	(19,402)	(2,215)	17,187
Contributions - non-monetary assets	-	-	-
Capital contributions - other sources	(260)	-	260
Adjusted underlying surplus (deficit)	290	(1,454)	(1,744)

4.2 Balance Sheet

4.2.1 Assets

Cash and cash equivalents include cash and investments such as cash held in the bank and in petty cash and the value of investments in deposits or other highly liquid investments with short term maturities of three months or less. These balances are projected to decrease by \$10.394 million during the year mainly due to the value of capital works and capital funding received for multiple year projects.

Trade and other receivables are monies owed to Council by ratepayers and others. Short term debtors are not expected to change significantly in the budget. Long term debtors (non-current) relating to loans to community organisations and principal and interest debtors for private streets, Kerb & Channel and Footpath Schemes will decrease in accordance with agreed repayment terms.

Other assets includes items such as prepayments for expenses that Council has paid in advance of service delivery, inventories or stocks held for sale or consumption in Council's services and other revenues due to be received in the next 12 months.

Property, infrastructure, plant and equipment is the largest component of Council's worth and represents the value of all the land, buildings, roads, vehicles, equipment, etc. which has been built up by Council over many years. The \$12.790 million increase in this balance is attributable to the net result of the capital works program (\$23.443 million of additional asset value), less depreciation of assets (\$10.072 million) and sale of plant and equipment (\$0.581 million).

4.2.2 Liabilities

Trade and other payables are those to whom Council owes money as at 30 June. These liabilities are budgeted to remain consistent with 2018/19 levels.

Provisions include accrued long service leave, annual leave and rostered days off owing to employees. These employee entitlements are also expected to remain constant due to more active management of entitlements despite factoring in an increase for Collective Agreement outcomes.

Interest-bearing loans and borrowings are borrowings of Council. Council is budgeting to repay loan principal of \$0.365 million over the year. Council is anticipating borrowing \$2 million in the 2019/20 year.

4.2.3 Borrowings

The table below shows information on borrowings specifically required by the Regulations.

	2018/19 \$	2019/20 \$
Total amount borrowed as at 30 June of the prior year	2,262	1,854
Total amount to be borrowed	-	2,000
Total amount projected to be redeemed	409	365
Total amount proposed to be borrowed as at 30 June	1,853	3,489

3.1.3 Working Capital

Working capital is the excess of current assets above current liabilities. This calculation recognises that although Council has current assets, some of those assets are already committed to the future settlement of liabilities in the following 12 months, and are therefore not available for discretionary spending.

Councils will not be able to hold working capital in 2019/20 (Current assets \$10.828 million less current liabilities \$11.835 million). Council will need to manage its cash payments and receipts carefully to maintain a positive cash balance. It should be noted, however that current liabilities will reduce during the year when the landfill provision is reduced to take into consideration works carried out during the 2018/19 and 2019/20 years thereby reducing current liabilities.

Some of Council's cash assets are restricted in that they are required by legislation to be held in reserve for specific purposes or are held to fund carry forward capital works from the previous financial year.

4.3 Statement of Changes in Equity

Total equity always equals net assets and is made up of the following components:

- Asset revaluation reserve which represents the difference between the previously recorded value of assets and their current valuations; and
- Other reserves that are funds that Council wishes to separately identify as being set aside to meet a specific purpose in the future and to which there is no existing liability. These amounts are transferred from the Accumulated Surplus of the Council to be separately disclosed.

	Forecast 2018/19 \$'000	Budget 2019/20 \$'000	Variance \$'000
Accumulated Surplus	152,429	153,130	701
Reserve – Asset Revaluation	200,463	200,463	-
Reserve - Open Space/Subdividers Contributions	273	283	10
Reserve – Parking Development	98	98	-
Reserve – Drainage Headworks	97	97	-
Reserve – Waste Management	401	451	50
	353,761	354,522	761

Subdividers Contributions are in lieu of provision of recreational land within a subdivision. These funds are used to develop strategically located parks and reserves for the benefit of residents in the general area, as provided in the Subdivision Act 1988 and Planning and Environment Act 1987.

The Parking Development Reserve is in lieu of provision of off-site parking as part of a development. These funds are used for the purchase and development of public access parking in the general area.

The Drainage Headworks Reserve is in lieu of meeting the cost to develop, upgrade and/or renew drainage infrastructure downstream of any subdivision development, a charge is levied on subdivision developers.

The Waste Levy Reserve is in lieu of meeting the cost to develop, upgrade and/or renew waste infrastructure. A charge is levied on waste fees and transfer stations as waste is deposited in these facilities.

4.4 Statement of Cash Flows

4.4.1 Operating activities

The increase in cash inflows from operating activities is due mainly to increases in operating grants and capital grants.

The net cash flows from operating activities does not equal the surplus (deficit) for the year as the expected revenues and expenses of the Council include non-cash items which have been excluded from the Cash Flow Statement. The budgeted operating result is reconciled to budgeted cash flows available from operating activities as set out in the following table.

	Forecast 2018/19 \$'000	Budget 2019/20 \$'000	Variance \$'000
Surplus (deficit) for the year	19,952	761	(19,191)
Depreciation	11,017	10,072	(945)
Loss (gain) on disposal Assets	0	0	0
Loss on impairment of Assets	0	0	0
Net movement in current assets and liabilities	139	323	184
Cash flows available from operating activities	31,108	11,156	(19,952)

4.4.2 Investing activities

The decrease in payments for investing activities (\$16.692 million) represents the planned decrease in capital works expenditure due to reinstatement of flood impacted and other projects from Council's Major Projects Priority Listing.

Proceeds from sale of assets are forecast to increase by \$0.120 million.

4.4.3 Financing activities

For 2019/20 the total of principal repayments is projected to be \$0.365 million and finance charges are projected to be \$0.323 million. Council is also budgeting to take up a new loan of \$2 million.

4.4.4 Cash and cash equivalents at end of the year

Overall, total cash and investments is forecast to decrease by \$10.394 million to \$4.966 million as at 30 June 2020, reflecting Council's strategy of using cash and investments to enhance existing and create new infrastructure before borrowing.

4.4.5 Restricted and unrestricted cash and investments

Cash and cash equivalents held by Council are restricted in part, and not fully available for Council's operations. The budgeted cash flow statement above indicates that Council is estimating at 30 June 2020 it will have cash and investments of \$4.966 million, which has been restricted as shown in the following table.

There are also a number of discretionary reserves which Council desires to have backed by cash, however there is no requirement to do so.

	Forecast 2019 \$'000	Budget 2020 \$'000	Variance \$'000

- Long Service Leave Entitlement	3,120	3,000	(120)
Total Discretionary Reserves/Funds	9,832	8,172	(1,660)
Unrestricted cash adjusted for discretionary Reserves	5,175	(3,559)	(8,734)

4.4.5a Statutory reserves

These funds must be applied for specified statutory purposes in accordance with various legislative requirements. While these funds earn interest revenues for Council, the funds are not available for other purposes.

4.4.5b Trust Funds & Deposits

These funds must be applied for specified statutory purposes in accordance with various legislative requirements. While these funds earn interest revenues for Council, the funds are not available for other purposes.

4.4.5c Discretionary reserves/Funds

These funds are shown as discretionary reserves as, although not restricted by a statutory purpose, Council has made decisions regarding the future use of these funds and unless there is a Council resolution these funds should be used for those earmarked purposes. Each of these reserves/funds are backed by cash investments.

4.4.5d Unrestricted cash adjusted for discretionary reserves

These funds are free of all specific Council commitments and represent funds available to meet daily cash flow requirements, unexpected short term needs and any budget commitments which will be expended in the following year such as grants and contributions. Council regards these funds as the minimum necessary to ensure that it can meet its commitments as and when they fall due without borrowing further funds.

4.5 Capital Works Program

4.5.1 Funding sources

Total funding sources	40,135	23,443	(16,672)	(42%)

4.5.1a Grants

Capital grants include all monies received from State and Federal sources for the purposes of funding the capital works program. Significant grants and contributions are budgeted to be received for Roads to Recovery, Industrial Estate Development, Livestock Exchange Development, Cox Street Redevelopment and other minor grants. See Section 5 for more details by project.

4.5.1b Council cash - proceeds from sale of assets

Proceeds from sale of assets include construction fleet and motor vehicle sales.

4.5.1c Council cash - reserve cash and investments

Council has significant cash reserves set aside for specific purposes such as waste management, public open space and car parking development. It is not anticipated to spend any of these funds in 2019/20.

4.5.1d Council cash - unrestricted cash and investments

In addition to reserve investments, Council has uncommitted cash and investments which represent unrestricted cash and investments.

Key to Forecast Trend:

- + Forecasts improvement in Council's financial performance/financial position indicator
- o Forecasts that Council's financial performance/financial position indicator will be steady
- Forecasts deterioration in Council's financial performance/financial position indicator

Notes to indicators –

1 Adjusted underlying result – An indicator of the sustainable operating result required to enable Council to continue to provide core services and meet its objectives. Improvement in financial performance is required over the longer term as continued losses means reliance on Council's cash reserves or increased debt to maintain services.

2 Working Capital – The proportion of current liabilities represented by current assets. Working capital is forecast to decrease in 2019/20 after a high level in 2018/19. This decrease is to fund the capital program. The trend in later years is declining to a lower than acceptable level.

3 Debt compared to rates - Trend indicates Council's balancing debt against its annual rate revenue as a planned lever to allow additional capital investment whilst maintaining a conservative percentage of borrowing. Currently, Council debt is only 9.2% of rate revenue which is well below the prudential level of 80%.

4 Asset renewal - This percentage indicates the extent of Council's renewal of assets against its depreciation charge (an indication of the decline in value of its existing capital assets). A percentage greater than 100 indicates Council is maintaining its existing assets, while a percentage less than 100 means its assets are deteriorating faster than they are being renewed and future capital expenditure will be required to renew assets.

Generally, Council has been achieving around 80% of its renewal target, however some of the renewal gap is absorbed into asset upgrade and expansion works. Council is also reviewing its asset portfolio to reveal any assets that are not required to be renewed which are inflating the required renewal target and incurring depreciation charges.

The highly inflated percentages in 2018/19 relate to flood reinstatement works which have been classified as renewal, however these works will only return the asset to its previous state. **This indicator is not accurate for these years.**

5 Rates concentration - Reflects extent of reliance on rate revenues to fund all of Council's on-going services. Trend indicates Council is continuing to be reliant on rate revenue compared to all other revenue sources.
