BUILDING ADDRESS: Thompson St & Martin St

BUILDING TITLE: Evangelical Lutheran Church

# STATEMENT OF SIGNIFICANCE

St Luke's Evangelical Lutheran Church Corner Martin and Thompson Streets, (1958).

This building has regional significance for its architectural interest as an example of the International style, notable features being its use of glazed tiles and Castlemaine slate in the wall panels. It has historical importance as a focus for the Lutheran community of the region and forms a church complex with the associated church hall at the rear (1939), an early manse at 46 Martin Street (1880) and a later manse at 12 Thompson Street (c1956). (i) At first the Lutherans met in the Temperance Hall in Gray Street but in 1939 a town Lutheran congregation was formed and a hall was built on the corner of Martin and Thompson Streets, which was able to be used as a church until a proper one was erected. The hall was moved to its present site in 1956. (ii) The new church was built in 1958. (iii) It is significantly intact and in excellent condition.
