**ENDORSEMENT FOR TECHNICAL ACCURACY
STANDARD ANEF**

MB
 Date: 13 July 2011

AIRSERVICES AUSTRALIA

General Manager Environment
Airservices Australia, Canberra

The aircraft noise contours on this chart have been calculated using an appropriate modelling process. Airservices Australia has, in accordance with approved manner of endorsement, considered the physical ultimate capacity of the existing or proposed runway/s in this endorsement process. The data input and assumptions made in that process are derived in part from external sources. Airservices Australia makes no warranty in respect of that information and excludes all liability for any loss arising from reliance on that information.
